STONEXPO 2008
OCTOBER 16-18

COME JOIN US AT BOOTH # 536

We always look forward to the StonExpo Las Vegas. It is a great opportunity to connect with old friends and develop lasting relationships with new customers. This year we are excited to showcase our latest products to the industry. We have several great new developments for the engineered stone and concrete markets. Our Gamma polishing pad for engineered stone has received top reviews from CaesarStone.

Be sure to stop by our booth to say hello, see our new products and talk with our knowledgeable sales team.
