

PolyPad Plus Floor Maintenance Pads

Description

The PolyPad Plus is an ideal general use high-speed burnishing product. It is a daily maintenance pad that contains a high concentration of abrasive material including diamonds, that are embedded along with a durable resin for long-lasting use. It can remove surface scratches and blemishes and bring a polished floor to a bright, high-end finish. It improves the appearance and keeps floors looking new. Use with a burnisher or swing machine.

Features

- Highly efficient and easy to use
- Designed to work on high-speed burnishers or swing machines
- Eliminates surface scratches
- Removes scuff marks

NOTE: When installing on equipment, the embedded diamond side is the work surface that contacts the floor.

Uses

PolyPad Plus is ideal for removing surface scratches, scuff marks, and refining a floor. It is recommended that the PolyPad Plus be used on a high-speed burnisher or a swing machine. The Pads are used on polished concrete and terrazzo.

Procedures

1. Install PolyPad Plus on a burnisher or swing machine
2. Dust mop floor prior to burnishing
3. Burnish the floor a section at a time
4. Move machine forward in a straight line at a slow walking speed then pull the machine back over the same line maneuvering it in a tail-wagging motion. Repeat step.
5. Continue as in #4 in the adjacent area next to the completed row.
6. For improved uniformity of finish, go over each section a second time using the same

technique as in #4, but moving across the first rows at a 90-degree angle. This is called cross-hatching. Repeat #5 and #6 if necessary.

7. When the section is finished, move forward and continue the same process until the floor is completely done
8. If using a process of more than one grit to achieve a higher gloss, clean the floor thoroughly after each grit
9. Repeat operation with higher grits as needed until desired surface smoothness or gloss level is reached.

Cleanup

After completing any application using PolyPad Plus pads, thoroughly rinse and clean each pad. Hang or stand on edge to dry and store appropriately. This will maximize product life.

Packaging Specifications

Product #	Description	Pack
PLPP210400	PolyPad Plus 21" (533mm) #400	5 pack
PLPP210800	PolyPad Plus 21" (533mm) #800	5 pack
PLPP2101500	PolyPad Plus 21" (533mm) #1500	5 pack
PLPP2103000	PolyPad Plus 21" (533mm) #3000	5 pack
PLPP2106000	PolyPad Plus 21" (533mm) #6000	5 pack
PLPP21012000	PolyPad Plus 21" (533mm) #12000	5 pack
PLPP270400	PolyPad Plus 27" (533mm) #400	5 pack
PLPP270800	PolyPad Plus 27" (533mm) #800	5 pack
PLPP2701500	PolyPad Plus 27" (533mm) #1500	5 pack
PLPP2703000	PolyPad Plus 27" (533mm) #3000	5 pack
PLPP2706000	PolyPad Plus 27" (533mm) #6000	5 pack
PLPP27012000	PolyPad Plus 27" (533mm) #12000	5 pack
